RE: EXP/023/0105; S/023/0103

Dear Wayne;

Enclosed please find the annual reports for the Exploration and Small Mines permits for N.P.R. (US) Inc. Please note that there was no disturbance of any sort during 2011. This was due to the poor economic conditions for base metals throughout 2011 and lack of investor interest despite the project being the only domestic deposit of indium-a strategic metal designated by the DOD and the DOE.

We now expect drilling to commence early in 2012. In this regard, we are asking for an extension on EXP/023/0105 through the end of 2012. Please let me know if you need additional information.

Thank you for your consideration.

Best regards,

Ken Puchlik  
Economic Geologist-Project Manager for N.P.R. (US), Inc.
